

# **CRITERIA, GUIDELINES AND PROCEDURES FOR AUTHORIZATION OF NEW AND REAUTHORIZATION OF EXISTING HIGHER EDUCATION INSTITUTIONS IN THE EMIRATE OF ABU DHABI**

DEPARTMENT OF EDUCATION & KNOWLEDGE 2016  
v.1.2

# FOREWORD

The current *Criteria, Guidelines and Procedures for Authorization of New and (re)authorization of Existing Higher Education Institutions in the Emirate of Abu Dhabi* provides the necessary information for applicants in their process of submission of an application to the Abu Dhabi Department of Education & Knowledge (ADEK) for the purposes of obtaining a ‘No Objection Letter’. The (re)authorization by ADEK is a prerequisite for applying to the Ministry of Education (MoE) Commission for Academic Accreditation (CAA) for (re)licensure. The document provides information regarding:

- \* Fundamental principles of ADEK upon which the HEI (re)authorization procedure is based
- \* ADEK’s approach to (re)authorization of Higher Education Institutions (HEIs) to function in the Emirate of Abu Dhabi
- \* Requirements the HEIs must meet in order to obtain ADEK’s ‘No Objection Letter’

To ensure coherence with ADEK’s strategic priorities, the ADEK (re)authorization criteria underpin their operationalization through spelling out those priorities in the major principles that the ADEK procedures are guided by.

## **The ADEK strategic priorities are as follows:**

- \* **Quality:** Raise the quality of Abu Dhabi’s higher education system to internationally recognized levels
- \* **Alignment:** Align higher education with Abu Dhabi’s social, cultural, and economic needs
- \* **Research:** Build and maintain a research ecosystem to drive an innovation-based economy
- \* **Access:** Provide all qualified students with affordable access to higher education

Thus, the ADEK criteria look at the quality of educational provisions, access to higher education, alignment with the national development plans as well as an aspiration to establish a knowledge-based society through evaluating *the impact* and *the value added* that the HEIs bring to the HE system and the Emirate of Abu Dhabi society at large.

**The ADEK (re)authorization procedure is mission and evidence-based in nature, which is underpinned by the *fitness-of-purpose* approach to quality assurance where the purpose is defined by the socio-economic and cultural needs in alignment with Abu Dhabi strategic priorities.**

The ADEK criteria, guidelines and procedures for (re)authorization of HEIs are developed based on international best practice with particular consideration of the standards set by overarching umbrella quality assurance networks.

The ADEK criteria, guidelines and procedures are subject to revision at regular intervals to ensure relevance to the socio-economic and cultural needs as well as validity.

The criteria, guidelines and procedures in this manual apply to all types of Higher Education providers in the Emirate of Abu Dhabi – federal, government, and private.

# STATEMENT OF AUTHORITY

ADEK was established in accordance with law No. 24 of 2005, issued by His Highness Sheikh Khalifa Bin Zayed Al-Nahyan, the UAE President, the Supreme Commander of the Armed Forces and the Ruler of Abu Dhabi.

ADEK's mission is to improve the quality and outcomes of schooling and higher education within the Emirate of Abu Dhabi (EAD), and to guide and define the overall profile and quality of higher education offerings within the Emirate. The Executive Council has delegated authority to ADEK with respect to leading, influencing and implementing educational initiatives and growth within the EAD.

Any entity interested in establishing, continuing or changing the nature of its operations in the EAD must follow the criteria, indicators, guidelines and procedures as outlined in this manual to obtain a 'No Objection Letter' from the Abu Dhabi Department of Education & Knowledge (ADEK) before filing an application with the Ministry of Education (MOE) Commission for Academic Accreditation (CAA) for (re)licensure and authorization of substantive change. No entity (e.g. individuals, institutions, consortia or organizations) may advertise, solicit, recruit, enroll, or operate a post-secondary education institution in the EAD until it meets the criteria set in this manual and is authorized for operation by ADEK.

The current criteria, guidelines and procedures are supported by an operating Memorandum of Understanding (2014) between MOE and ADEK.

## **Extract from the MoU between ADEK and MOE (November, 2014) (translation from Arabic) Proposed Mechanism**

### **1. Higher Education Licensing Protocol**

- a) The current operating procedures shall continue. All applicants seeking to operate higher education activities in Abu Dhabi Emirate shall undergo ADEK's Higher Education Licensing process as outlined in the ADEK Higher Education Licensing Policies. Successful applicants shall be issued a "No Objection Letter" from ADEK, however, such letter will not guarantee the approval from the UAE Commission for Academic Accreditation (CAA). After that step, applicants must submit an application for initial licensure to MOE CAA.
- b) Institutions seeking renewal of MOE licensure, or which anticipate any changes to the nature of their operations or their premises, or seek to relocate or open a new branch, shall duly re-engage in the process set out in Article A above.
- c) Institutions seeking to offer new programs must obtain ADEK's approval before submitting the relevant application for initial licensure from CAA. Such process shall start after ADEK sets an implementation date.

**The institutional (re)authorization criteria, procedures and related expenses are adopted by the resolution of the Executive Committee, Abu Dhabi Executive Council (2016/2/036/22) as of 21 June 2016.**

## THE QUALITY ASSURANCE FRAMEWORK IN THE EMIRATE OF ABU DHABI

The newly establishing Higher Education Institutions (HEIs) as well as programs intending to function in the United Arab Emirates are to obtain an initial institutional license/initial program accreditation from the MOE CAA. To be effective, the HEIs and programs are to renew their license/accreditation on a five year cyclical basis.

Thus, at the federal level, the quality assurance framework in the United Arab Emirates evolves around institutional and program components and includes the following mechanisms:

- \* Initial Institutional Licensure (IL) for new Higher Education Institutions
- \* Licensure (L) and Renewal of Licensure (RL) for existing Higher Education Institutions
- \* Initial Program Accreditation (IA)
- \* Accreditation (A) and Renewal of Accreditation (RA) for existing programs

The quality assurance framework at the federal level falls under the jurisdiction of the CAA.

At the Emirate of Abu Dhabi level, the quality assurance framework extends to include the following mechanisms:

- \* Authorization of New Institutions
- \* (Re)authorization of Existing Institutions
- \* Authorization of New Programs
- \* Authorization of Substantive Changes

The quality assurance framework in the EAD falls under the jurisdiction of the ADEK.

The two approaches – CAA and ADEK - are distinct and complement each other in the sense that CAA's quality assurance framework looks at the extent to which the HEI or program is *fit for the purpose/mission* it has been established for, while the ADEK quality assurance framework specifically looks at the *fitness-of-purpose* in relation to Abu Dhabi's strategic priorities. Thus, all the proposals submitted to ADEK for authorization of new HE institutions and new programs as well as (re)authorization of existing HEIs and substantive changes to function in Abu Dhabi should underpin alignment to the socio-economic and cultural needs frame of reference with an explicit emphasis on the *value added, impact and alignment with the strategic priorities of Abu Dhabi*.

ADEK's authorization procedures sequentially precede CAA's (re)-licensing and initial accreditation procedures for new HEIs, new programs, existing HEIs and substantive changes. An ADEK No Objection Letter is a prerequisite for applicants to apply to the CAA for respective procedures.

The current guidelines offer a detailed approach that ADEK underpins and the HEIs should follow while conducting (re)authorization of new and existing HEIs and substantive changes in the EAD.

## (RE) AUTHORIZATION OF HEIs IN THE EMIRATE OF ABU DHABI

According to the Memorandum of Understanding signed between ADEK and MOE (2014) the new and existing HEIs are to submit a proposal to ADEK for (re)authorization in the following cases:

- \* If there is a new initiative to establish an HEI in Abu Dhabi – this applies to all types of applicants.
- \* If the HEI seeks to renew the license with MOE, this approach applies to all HEIs in the EAD. It bears a cyclical character and is conducted on a mandatory basis once every five years.
- \* If the HEI anticipates any *substantive change* in the nature of its operations and premises, or seeks to relocate or open a new branch – this approach is case specific and only applies to the HEIs that intend to make substantive changes.

### Substantive Changes: The definition

Existing HEIs are to apply to ADEK for a No Objection Letter in situations where there are plans to undertake substantive changes in its operations. The substantive changes are defined as follows:

- \* **Location:** ADEK approval is location specific. Operations granted approval within any given locale cannot seek to expand or move their operations to another area, zone or geographic location without further approval from ADEK.
- \* **New Partnerships:** ADEK approvals are for partnerships stated at the time of application. Institutions cannot seek to modify or terminate current partnerships without prior application to ADEK. Any new institutional partner must undergo the procedure outlined in the current manual to obtain a No Objection Letter before the institution, the partner, or their joint entity commences any activity in the EAD.
- \* **New Programs or Certificates:** ADEK approvals are program and certificate specific and limited to those stated at the time of application. New programs or certificates offered at an approved institution, in partnership with another institution or developed and delivered by the approved institution, require ADEK approval before delivery can commence. ADEK encourages the growth of institutional capacity, as long as the growth is strategically aligned with the needs of the EAD.
- \* **Changing Nomenclature or Category:** ADEK approval is valid for the nomenclature deemed appropriate at the time of application and for the category in which the approved institution is operational. Institutions that seek to change name, mission or operate with different purposes for which it was originally granted approval must be reassessed according to the nomenclature and categories put forward by ADEK and evaluated on the basis of the criteria and procedure outlined in this manual.

Thus, HEIs planning to and currently functioning in the EAD are to obtain a “No Objection” letter from ADEK prior to their application for (re)licensure to MOE CAA and prior to undertaking any substantive change in its operation.

ADEK's framework for authorization of new HEIs focuses on three distinctive mission aspects of HE; *teaching and learning, research and service to society* – from the point of view of *value added, impact and alignment with strategic priorities of Abu Dhabi* and responds to the following questions:

- In case of existing HEIs the response to the following questions is required:

1. To what extent does the existing HEI and the programs it delivers meet the labor market, social and cultural needs in the EAD? How does the existing HEI fit the strategic development scheme of Abu Dhabi and what its market niche is?
2. What are the unique and distinctive ways in which the institution enriches and adds value to the higher education sector and society, nationally, regionally and internationally? Has the HEI been able to increase its attractiveness and visibility at the national, regional and international levels?
3. What has the institution done to produce a vibrant intellectual culture within the institution and in society at large? To what extent does the HEI act as a generator of new ideas and cutting-edge knowledge and technologies within the national HE system?
4. Has the HEI been able to ensure enough resources to establish a student-centered environment thus enabling the students in obtaining qualifications relevant to market demand? Are the qualifications offered relevant to the market, social and cultural needs and the graduates employable?
5. To what extent has the internal and external quality assurance of the HEI been able to enhance the quality of its provisions?

If an HEI is planning substantive changes in its operations, it has to undergo a limited procedure of (re)authorization with ADEK. The cases with substantive change request are to be handled on individual basis drawing on the nature of the substantive change proposed. In each individual case, the criteria and respective indicators will be applied selectively, based on the case requirements.

- \* Any potential higher education provider seeking to establish a new higher education institution/branch in the Emirate of Abu Dhabi must consult ADEK prior to submitting the application.
- \* The HEI filing the applications for authorization should partner with internationally **highly ranked** and **reputable** higher education institutions and/or leaders in the fields of study proposed.

Failure to comply with the prerequisites set by ADEK will result in the rejection of the application.

## THE CRITERIA

Criteria	Sub-criteria	Indicators
<b>1. Alignment with the Abu Dhabi Strategic Priorities</b>	<p><b>1.1 Positioning in the HE system:</b> The institution demonstrates stable operations and steady growth in outcomes and outputs (quality and/or quantity). The HEI adds value within its chosen sector(s), and has strong potential for visibility at the national, regional and international levels.</p> <p><b>1.2 Employability of graduates:</b> The HEI is tracking the status of its graduates to raise the employability rate and to better serve the needs of the market.</p>	<ul style="list-style-type: none"> <li>- Status of national and international accreditation</li> <li>- Employer satisfaction rate</li> <li>- Graduate satisfaction rate</li> <li>- % of employment within 9 months of graduation</li> </ul>
<b>2. Governance and Administration</b>	<p><b>2.1 Mission, vision and strategy:</b> The HEI vision, mission, objectives and strategic priorities are in line with the Abu Dhabi strategic, economic, social and cultural development priorities.</p> <p><b>2.2 Governance, structure and nomenclature:</b> The governance model allows for efficient management, operations and strategic plan implementation. The institution adheres to the highest standards of integrity. There is solid evidence that the nomenclature of the institution reflects its capabilities and functions.</p>	<ul style="list-style-type: none"> <li>- % of programs aligned with Abu Dhabi strategic plan</li> <li>- Board of trustees formation is in accordance with international standards</li> <li>- % of strategic projects shared with Abu Dhabi-wide entities</li> <li>- Number of academic programs with research and innovation projects</li> </ul>
<b>3. Programs</b>	<p><b>3.1 Alignment of the programs with the national qualifications framework:</b> The institution has policies and procedures for designing and approving new academic programs and courses that are in line with the QFEmirates.</p> <p><b>3.2 Learning outcomes and qualifications offered:</b> The institution has clearly articulated intended learning outcomes for its academic programs, which are relevant to market needs.</p>	<ul style="list-style-type: none"> <li>- % of colleges with established Advisory Board</li> <li>- % of programs aligned with QFEmirates</li> <li>- % of international students on sponsorship</li> <li>- % of programs with integrated practicum/internship</li> </ul>

## THE CRITERIA

<b>4. Research</b>	<p><b>4.1 Promotion of research and innovation:</b> The HEI has mechanisms and processes that support research activities, enhance research quality and productivity and promote innovation.</p> <p><b>4.2 Research outputs and outcomes:</b> The research outcomes and outputs are visible at national, regional and international levels.</p>	<ul style="list-style-type: none"> <li>- Total budget allocated for research</li> <li>- Graduate /undergraduate students ratio</li> <li>- Total # of publications</li> <li>- # of publications per faculty</li> <li>- # of patents, licenses and spin-offs</li> <li>- # of external research grants</li> <li>- Field-weighted citation impact</li> <li>- Publications in top journal percentiles (%) - 25%</li> </ul>
<b>5. Community Services</b>	<p><b>5.1 General community service:</b> The HEI sets community service as one of its strategic priorities and has relevant financial and human resources to deliver those services.</p> <p><b>5.2. Charity and volunteer work:</b> The HEI promotes charity and volunteering activities to benefit society.</p>	<ul style="list-style-type: none"> <li>- # of community service initiatives</li> <li>- # of education and training provision for the community</li> <li>- # of charitable initiatives</li> <li>- Total # of government projects &amp; consultations</li> </ul>
<b>6. Resources</b>	<p><b>6.1 Faculty and staff:</b> The institution employs qualified and sufficient faculty and staff to deliver its academic programs.</p> <p><b>6.2 Learning resources:</b> The institution has secured student access to learning resources (e.g. library, labs) to ensure achievement of the learning outcomes.</p> <p><b>6.3 Student services:</b> The institution has secured access to student support services necessary to ensure the learning expected of its students as well as promote career aspirations.</p>	<ul style="list-style-type: none"> <li>- % of full-time faculty members</li> <li>- % of faculty with a PhD</li> <li>- % of faculty with qualifications from top 500 internationally ranked institutions (e.g. Shanghai, THE)</li> <li>- Faculty/student ratio (excluding foundation year)</li> <li>- # of print holdings – journals and textbooks</li> <li>- # of electronic holdings - journals and textbooks</li> <li>- # and % of students obtaining full time employment on graduation through the institution</li> <li>- Student satisfaction with student services and career guidance</li> </ul>

## THE CRITERIA

<b>6. Resources (Cont.)</b>	<p><b>6.4 Physical campus:</b> The institution has a purpose-built campus with adequate physical resources to ensure an environment comparable with international standards for students and faculty members.</p> <p><b>6.5 Financial capacity:</b> The institution is financially capable of fulfilling its commitments to program delivery in the longer term.</p>	<ul style="list-style-type: none"> <li>- Compliance with Abu Dhabi Health &amp; Safety requirements</li> <li>- Average teaching space in square meters per student FTE</li> <li>- Total budget (the amount from government support, tuition fees, donations, endowments, consultations)</li> <li>- Average compensation expenditure per faculty</li> <li>- Average expenditure per student</li> <li>- Tuition fees per program</li> </ul>
<b>7. Access</b>	<p><b>7.1 Broadening access:</b> The institution demonstrates a commitment to broadening access to higher education.</p> <p><b>7.2 Support for disadvantaged students:</b> The institution devotes human and financial resources to the support of disadvantaged and physically challenged students.</p>	<ul style="list-style-type: none"> <li>- % of students receiving internal financial aid and scholarship</li> <li>- % of total budget allocated to internal financial aid and scholarships</li> <li>- % of special needs students</li> <li>- Facilities adherence to special needs requirements</li> </ul>
<b>8. International Visibility</b>	<p><b>8.1 Institutional ranking:</b> The institutional quality assurance system promotes and enhances the educational provisions and international ranking.</p> <p><b>8.2. Institutional and program accreditation:</b> The institution has established quality assurance mechanisms to promote accreditation of the institution and the programs, both nationally and internationally.</p>	<ul style="list-style-type: none"> <li>- Ranking of the HEI by international agencies</li> <li>- % of programs with international accreditation</li> </ul>

## THE GUIDELINES TO THE CRITERIA

The overall guideline for conducting an institutional self-evaluation against the below criteria and indicators is; each sub-criterion should be addressed through an in-depth analysis as described in the current manual and justified with respective indicators, facts, figures and evidences.

The applications for substantive change will be handled on an individual basis drawing on the nature of the proposed substantive change. Respectively, the criteria will be applied selectively, based on the case-by-case requirements.

**In case of establishing new HEIs, the analysis in the application should provide a clear projection for at least five upcoming years as well as justified with relevant data.**

**In case of the existing HEIs, the data provided should cover the last five years of the HEI operation.**

### CRITERION 1: Alignment with Abu Dhabi's Strategic Priorities

- 1.1 Positioning in the HE system:** The institution demonstrates stable operations and steady growth in outcomes and outputs (quality and/or quantity). The HEI adds value within its chosen sector(s), and has strong potential for visibility at the national, regional and international levels.
- 1.2 Employability of graduates:** The HEI is tracking the status of its graduates to raise the employability rate and to better serve the needs of the market.

#### Guidelines:

- 1.1** In case of new HEIs, the proposal should demonstrate how the educational establishment is aligned with the Abu Dhabi socio-economic and cultural needs, guided by the Abu Dhabi economic vision. It should clearly demonstrate the ways it will contribute to Abu Dhabi's strategic priorities, towards building a knowledge-based economy, what the value added is and what the expected impact would be. The analysis should be based on the evidence.

The feasibility study should clearly:

- ✱ Justify the need for the endeavor, which responds to the national development plan
- ✱ Provide references to need(s) of the society, and facilities proposed to be created in relation to the market demand
- ✱ Outline social benefits to be achieved

The business plan should clearly demonstrate the case, including but not limited to the philosophy and the objectives of the new endeavor expressed in the mission statement, vision, and respective projections.

In case of existing HEIs, the self-evaluation report should demonstrate how the existing HEI is aligned with Abu Dhabi's labor market, socio-economic and cultural needs, guided by Abu Dhabi's economic vision and strategic priorities. The analysis should be supported by the evidence. The report should clearly demonstrate the ways it contributes to Abu Dhabi's strategic priorities, towards building a knowledge-based economy, what the impact and value added is. A statement of current educational objectives of the institution, and an impact analysis on the labor market as well as a copy of the institution's affirmative action program, policy, and plan should be attached.

- The self-evaluation report should demonstrate an accurate analysis of the target student population (local and international) and a clear analysis on the effectiveness of the student recruitment, admission and enrollment. The data provided should demonstrate the extent to which the operations are/have potential to be stable as well as ensure quantitative and qualitative growth.

## CRITERION 2: Governance and Administration

- 2.1** The self-evaluation report should clearly state the vision and mission statement of the institution, the vision to be achieved. The mission statement should clearly state the distinctiveness of the endeavor, address the needs of Abu Dhabi society at large, and identify the target population it serves. Priorities in teaching and learning, research and services to society should be identified. The mission statement should be measurable to provide a firm basis for internal and external evaluations. There should be a clear articulation of the goals and objectives of each proposed program which are in line with the institutional mission and Abu Dhabi strategic priorities.

A clear articulation with the mission and vision should be demonstrated. The goals and objectives should be reflected in a five-year strategic plan, which should be cascaded down to specific objectives, reflected in long and short-term operational plans and be linked with the budget and respective QA mechanisms. The policies and procedures should be devised in a way that ensure implementation of the strategic plan. The mission statement should be adopted by the Governing Board and made publicly available. A long-range plan should complement the institution's mission by defining the path to mission attainment over an extended period of time.

The proposal should provide sufficient evidence on all the policies, procedures and regulations related to the operations of the new institution. Through its policies and practices, the institution should demonstrate how it will convey the values it adheres to the public at large. The policies should be made publicly available for all the stakeholders.

Higher Education institutions (universities, institutes, colleges, schools, academies, etc.) in Abu Dhabi are differentiated by research, teaching and application capacities by the following categories, and ADEK seeks to provide approvals to only the leading institutions in each category, or ‘best in class’ institute.

## University

An institution that normally offers and grants **undergraduate, masters** and **doctoral** degrees in a **variety** of subject areas. The institution engages in **high quality research** across the range of its subject areas which informs its teaching and learning.

## Institute

A **research-focused stand-alone** entity concentrating on a **single or small** range of subject areas, usually of a **technical nature**. The institution engages in **high quality research** across the range of its subject areas. It may offer and grant degrees in areas **related to its research focus/foci**, at undergraduate level but more normally at **masters** and **doctoral** degree levels.

**College or School**

An institution that is either **stand alone** or a **constituent** part of a university. The terms college and school can be used interchangeably.

As a **stand-alone** entity, a college will be **practice-led** and normally offer and grant degrees in a **single or small range of subject areas**, usually at **undergraduate** and/or **masters' levels**. The institution is expected to engage in a level of **research commensurate** with the level(s) of the program/s being offered.

A college as a **constituent** part of a university (sometimes referred to as a university college) adopts the characteristics of the parent institution in **a single or small range of subject areas**, the college's specialism, for example, medicine, law, business, engineering, etc. A college, within an institution, may deliver **undergraduate** and/or **masters** and/or **doctoral** degrees. The college/school is expected to engage in **a level and type of research commensurate** with the remit of the parent institution and the degrees being delivered by the college across the range of its subject areas. This research will inform the college's teaching and learning.

## Academy

A **stand-alone** institution that this is **practice-led**, normally offering and granting degrees in a **single subject area**. An academy normally offers and grants **undergraduate and/or masters** degrees. An academy is expected to engage in a **level of research commensurate** with the level(s) of the program(s) being offered.

### CRITERION 3: Programs

- ### Guidelines:

- The existing HEI should provide an analysis of the policies and procedures for new program development and approval with clear evidence of the impact and effectiveness of such an approach, as well as steps undertaken to raise the effectiveness of the given policies and procedures.

If the HEI is operating in partnership with an international HEI, it should demonstrate that such a partnership goes beyond signing a commitment letter, and there is a clear commitment of the partner and contribution to the success. The analysis should elaborate on the extent to which the partner is involved in the delivery of programs, how the partner, in collaboration with the HEI, puts efforts in ensuring delivery of the same quality as in its main institution, the respective impact and tangible outcomes of such a partnership.

- \* Proposed degrees, diplomas, certificates to be awarded
- \* Name and duration of courses/program
- \* Mode of delivery
- \* Curriculum
  - Proposed structure/scheme of studies
  - Management of practical training, work placements
- \* Development of academic/study programs
  - Policies for study/academic program development and adoption
  - Development schedule/procedure
- \* Arrangement for academic supervision of students
- \* Local and international student admission policy
- \* Number of students to be enrolled, level-wise
- \* Procedures and criteria for admission
- \* Promotional campaign
- \* Fee structure
  - Admission fee
  - Annual tuition fee
  - Other dues / fees (to be specified by the applicant)
  - Scholarships
  - Bursaries
  - Assistantships

- ## CRITERION 4: Research

- ### Guidelines:

- If the HEI is operating in partnership with an international HEI, it should ensure the partner's participation in joint research projects with the HEI's faculty members and that the outputs are visible at national, regional and international levels. Thus, an elaboration on the effectiveness and efficiency of the planned and implemented research activities with the partner institution should be provided as well as supported with respective evidence.

# THE GUIDELINES TO THE CRITERIA

## CRITERION 5: Community Services

- 5.1 General community service:** The HEI sets community service as one of its strategic priorities and has relevant financial and human resources to deliver those services.
- 5.2 Charity and volunteer work:** The HEI promotes charity and volunteering activities to benefit society.

### Guidelines:

- 5.1** The HEI should demonstrate that it sets the community service as one of its strategic priorities and has allocated relevant financial and human resources to deliver those services. There should be a clear description of all the services delivered and their relevance to the needs of the Abu Dhabi community. The HEI should demonstrate that it engages in planning activities to serve the Abu Dhabi community needs. Such planning should elaborate on the initiatives and processes through which the expertise of the institution in the areas of teaching and research are applied to serve the EAD community needs and encourage community involvement. There should be an analysis of such a service justifying the impact and effectiveness of the approach. The HEI should have evidence of engagement in a regular revision of its services to the community to better meet its needs. Such services may include but, are not limited to, delivery of training, consultancy services, seminars, workshops and the like.
- 5.2** The HEI should demonstrate that it sets charity and volunteering work as one of its priorities and has allocated relevant financial and human resources to deliver those services. There should be a clear description of all the services delivered and their relevance to the needs of the Abu Dhabi community as well as an analysis of the impact and effectiveness.

## \* CRITERION 6: Resources

- 6.1 Faculty and staff:** The institution employs qualified and sufficient faculty and staff to deliver its academic programs.
- 6.2 Learning resources:** The institution has secured student access to learning resources (e.g. library, labs) to ensure achievement of the learning outcomes.
- 6.3 Student services:** The institution has secured access to student support services necessary to ensure the learning expected of its students as well as promote career aspirations.
- 6.4 Physical campus:** The institution has a purpose-built campus with adequate physical resources to ensure an environment comparable with international standards for students and faculty members.
- 6.5 Financial capacity:** The institution is financially capable of fulfilling its commitments to program delivery in the long term.

**6.1** The analysis should demonstrate that the HEI employs appropriate numbers of suitably qualified faculty and other academic and administrative personnel, to support its academic programs and ensure achievement of student learning outcomes. Faculty members and other academic personnel employed should be qualified by virtue of education, training, experience or appropriate skills. Designated professional qualifications should be consistent with the expected learning outcomes as outlined in the offered programs and should be relevant to the market need. There should be an adequate core of faculty and other qualified professionals that are responsible for successful delivery of programs and assures the continuity, coherence and enhancement of the HEIs programs.

The management of the program is at the heart of the program's success, thus, the HEI should have management responsible for the program design, implementation, monitoring, review and enhancement. A clear focus should be made on the qualifications of the staff member responsible for the program. The qualifications of the program responsible should enable an effective and efficient management of the program. Further, the administrative staff selected should have the capacity to practice a student-centered approach in implementing the program in all the aspects: registrar, career center, advisory services and the like. The management and administration should be skilled enough to exercise quality assurance mechanisms to further enhance the program.

- 6.2** The HEI should provide an in-depth and justified analysis of the resource allocation per program, departments as well as individuals. A clear justification of the library and other resource availability for each program should be provided. The institution must make adequate provision for student access to web-based and other electronic learning materials. For practical courses there must be adequate relevant training facilities. Where applicable, equipment must be shown to conform to industry standards. The institution should have the necessary library stock relevant to the learning

The resources allocation policy should be evaluated and constantly revised to ensure adequacy of the learning and working environment including access to a fully equipped campus, the instructional equipment, materials, space available to implement the program(s), research laboratories, libraries, performance spaces, clinical practice sites, museum collections, dormitories, fitness facilities, etc. An analysis on the extent to which the existing resources are promoting achievement of learning outcomes by the students should also elaborate on the relevance of the resources to the market needs. The HEI should be able to justify value for money against tuition paid. To be able to prove the value for money, a comparative analysis of the leading competitors in the field should be provided.

- T. +971 (2) 615 0000    IG. ADEK\_INSTA    WWW.ADEK.GOV.AE**

- \* Proposed site area along with a justification with reference to demographic requirements and availability of present facilities in the area.
- \* Land (land donation, land acquisition, land purchased).
- \* Infrastructure available – the proposal should consider a full campus with the necessary facilities including, but not limited to:
  - Administration, academic, library, laboratories, hostels, halls, sports grounds and other facilities, including recreational and health and safety facilities
  - The HEI has to align its health and safety regulations with the Abu Dhabi Environment, Health & Safety Management System Regulatory Framework (AD EHSMS RF) and the Education Sector EHSMS Requirements.
    - HEIs are required to comply with the Abu Dhabi Environment, Health & Safety Management System Regulatory Framework (AD EHSMS RF) and the Education Sector EHSMS Requirements currently under enforcement by ADEK as Education Sector Regulatory Authority (SRA) in the Emirate of Abu Dhabi. To meet the sub-criterion the HEIs are requested to:
      - Register with Abu Dhabi Department of Education & Knowledge (ADEK) EHS Section and fill the Risk Classification Tool data (attached) to be classified and enroll as a nominated entity for the development and implementation of the required EHS Management tool as requested by ADEK.
      - Develop/implement approved the EHS Management System Tool (Full EHSMS, Mechanism 5, etc.) including Emergency Management Program in compliance with AD EHSMS Requirements RF and Education Sector EHSMS Requirements.
      - Monitor the approved EHS Management System Tool (Full EHSMS, Mechanism 5, etc.) in compliance with Abu Dhabi EHSMS Requirements RF and Education Sector EHSMS Requirements.
      - Conduct Annual External 3<sup>rd</sup> Party Audit.
      - Report & Investigate OSH Incidents in compliance with AD EHSMS Requirements RF and Education Sector EHSMS Requirements.
      - Management of Appointed Contractors in compliance with AD EHSMS Requirements RF and Education Sector EHSMS Requirements.
      - Maintain and continually improve EHS Management Tool as required and based on Annual Management Review as needed in compliance with AD EHSMS Requirements RF and Education Sector EHSMS Requirements.

## THE GUIDELINES TO THE CRITERIA

The requested attachments for this particular sub-criterion are as follows:

- \* Completed Risk Classification & Confirmed Classification by ADEK EHS Section to start development and implementation of EHS Management Tool based on classification. (**Reference:** Education Sector EHSMS Requirements-Section 3:- Education Sector Entities Risk Classification).
- \* EHS Management Tool Approved by ADEK EHS Section.
- \* Complete and Submit Form E - Entity Quarterly Performance Report.
- \* Form F - Entity Annual External EHSMS Audit Report Form.
- \* Form G - Serious OHS Incident Notification - v2.1 (Dec 2013) Fillable
- \* Form G1 - Serious OHS Incident Investigation- v2.1 (Dec 2013) Fillable
- \* Form G2 - Non-Serious OHS Incident Investigation- v2.1 (Dec 2013) Fillable
- \* Form H - Notice of Appointment of a Principal Contractor Form - V2.0 - Feb 2012
- \* Form J - Request for Modification of AD EHSMS RF - V2.1 - Apr 2013
- \* Equipment, office, and laboratories
- \* Books, journals, software, other publications
- \* Furniture, fixtures
- \* Emergency and recreational facilities

The HEI should ensure sufficiency and adequacy of physical resources to achieve the program outcomes as well as support the students in their achievement of the qualifications. The space/venue/location identified for program delivery should be adequate for the number of students to be enrolled. The location should have all the necessary instructional resources and media appropriate to the program learning outcomes. There should also be a description and evidence of any generic or dedicated computing facilities as well as learning centers for students, dormitory, sports and other facilities.

**6.5** The financial performance related to the goals and strategies of the HEI should be continually assessed against the strategic and financial plans. The successful HEIs should be able to provide data for the last five fiscal years as well as a projection for, at least, upcoming two years including a forecast of revenues, expenses, and investment income, and where available, a statement of financial position at the end of the fiscal year. In addition, a certified audit showing the financial structure of the institution, with balance sheets and operating statements for the last five fiscal years, as well as information regarding the tax status of the institution should be enclosed. Sustainability projections from financial and academic points of view for the upcoming years should be duly justified. The analysis related to the financial stability of the HEI should demonstrate that the institution is in a good standing and has been and will be able to further fulfil its commitments to the students. The HEI should demonstrate a robust funding model by identifying the potential sources. There should be enough evidence on the financial stability for provision of sustainable services to meet its obligations to the students enrolled. The projections made for the upcoming five years should demonstrate a firm background for achieving the program's objectives. The budget should be aligned with the strategies and operational plans for the program and fit well within the overall HEI financial and strategic framework.

## THE GUIDELINES TO THE CRITERIA

### CRITERION 7: Access

- 7.1 Broadening access:** The institution demonstrates a commitment to broadening access to higher education.
- 7.2 Support for disadvantaged students:** The institution devotes human and financial resources to the support of disadvantaged and physically challenged students.

- 7.1** The HEI should demonstrate its commitment to widening and broadening access to its institution. Thus, it should justify based on which factors it designs its tuition fees and the extent to which it takes into consideration the needs of the customers and the market while setting tuition fees. If tuition fees have been raised throughout the last five years, based on which indicators such a decision was taken. It should also elaborate on the ways it seeks to ensure financial support to students. Geographical access should also be in the center of the HEI planning and respective activities.
- 7.2** The HEI should demonstrate an in-depth analysis on the target groups that are disadvantaged for some reason (e.g. geography, health, gender and the like) and provide a clear policy and evidence on the educational provisions for those groups. The educational provisions could include, but not be limited to, various forms of education delivery such as distance/e-learning, special tracks for students with disabilities and the like.

### \* CRITERION 8: International visibility

- 8.1 Institutional ranking:** The institutional quality assurance system promotes and enhances the educational provisions and international ranking.
- 8.2 Institutional and program accreditation:** The institution has established quality assurance mechanisms to promote accreditation of the institution and the programs, both nationally and internationally.

#### Guidelines:

- 8.1** The HEI should provide an analysis on the effectiveness and efficiency of the internal quality assurance system at the institutional level, to what extent it promotes enhancement of the educational provisions and respective impact. The institutional internal quality assurance system should be designed in a way so as to promote establishment of a quality culture within the HEI. Thus, evidence of direct and indirect stakeholder involvement in the internal quality assurance should be provided. The HEI should be able to demonstrate the approaches undertaken to turn quality assurance responsibility of all the stakeholders involved, as well as steps undertaken to ensure ownership for quality assurance – all enabling establishment of a

To ensure continuous development and enhancement the HEIs should demonstrate to what extent they follow up on the recommendations spelled out in the internal and external evaluation reports received as a result of local and international accreditations/external reviews (financial or content-wise audits). Such an analysis should clearly evaluate and demonstrate the impact of such external recommendations on the success (failures are also possible) of the HEI as well as the lessons learnt.

## THE PROCEDURE

### \* The procedural steps

All HEIs in the EAD, new and existing, seeking to apply for or renew the MoE license or which anticipate any changes to the nature of their operations or premises, or seek to relocate or open a new branch are to apply to ADEK for (re)-authorization leading to a grant of a No Objection Letter prior to submitting their application to the CAA.

Overall, the duration of the procedure is up to six months (see Annex A for the flowchart). In case there is a need to make corrections and addition to the application by the HEIs some extension might apply.

All the institutions to undergo a (re)-authorization procedure are invited to a preliminary meeting with ADEK to discuss and agree on the scope of the external review prior to the launch of the procedure.

For the implementation of a procedure related to the authorization of substantive changes adjustments to the below procedure might be made based on the case requirements.

### STEP 1: Prepare and submit application

<b>Description/ Definition:</b>	The HEI planning to apply for (re)-licensure with the MOE CAA should file an application to ADEK based on the criteria, indicators and guidelines as specified in this manual. The application should be analytical in nature and should adhere to ADEK criteria for (re)-authorization of HEIs. The application should be submitted in one official hard copy and a soft copy to the ADEK Chairman/ Sector Executive Director.
<b>Responsible:</b>	HEI
<b>Inputs:</b>	<ul style="list-style-type: none"><li>• The ADEK application form for (re)-authorization of existing HEIs</li><li>• ADEK guidelines, criteria and procedures for (re)-authorization of existing and new HEIs</li><li>• The application filed by the applicant seeking No Objection Letter from ADEK</li></ul>
<b>Outputs:</b>	The ADEK acknowledgement of the application
<b>Time line:</b>	All applications should be submitted at least seven months prior to the deadline for submitting the full application for (Re)-Licensure to CAA.

## THE PROCEDURE

### \* STEP 2: Pre-screen application for technical compliance

<b>Description/ Definition:</b>	Once the application is filed, the case is sent to the ADEK P&R Division Director and is assigned a Procedure Coordinator. The Procedure Coordinator receives and reviews the application along with the required supporting documents for technical compliance with the ADEK criteria and requirements.
<b>Responsible:</b>	ADEK P&R Division Director; QA Section Manager; Procedure coordinator
<b>Outputs:</b>	<ul style="list-style-type: none"><li>• ADEK letter of application acceptance</li><li>• ADEK contract/agreement with the HEI</li></ul>
<b>Time line:</b>	One week upon the receipt of the application

### \* STEP 3: Amend application

<b>Description/ Definition:</b>	In case of detection of any non-compliance with the ADEK requirements, the application is sent back to the HEI for revision and resubmission.
<b>Responsible:</b>	ADEK QC Section Manager, HEI
<b>Outputs:</b>	<ul style="list-style-type: none"><li>• ADEK letter of non-compliance to the HEI.</li><li>• In case of a positive outcome of the technical review, the cases related to substantive changes and grant of space/location to the HEIs, an internal No Objection Letter is to be sent to the ADEK Infrastructure and Facilities Division to proceed with the location grant request.</li><li>• Resubmitted application</li></ul>
<b>Time line:</b>	Two weeks upon the receipt of the letter of non-compliance.

## THE PROCEDURE

### \* STEP 4: Select and appoint external reviewers

<b>Description/ Definition:</b>	<p>The ADEK Procedure Coordinator identifies potential external reviewers and submits the list for approval to the ADEK Academic Quality Assurance Committee (AQAC). The external reviewers are contracted and are to sign ADEK non-disclosure/confidentiality statement and ADEK conflict of interest statement.</p> <p>The content related to the sub-criterion on health and safety regulations will be reviewed by ADEK respective division. The results will feed into the final report to be submitted to the AQAC for decision-taking.</p>
<b>Responsible:</b>	ADEK AQAC; Procedure Coordinator
<b>Inputs:</b>	<ul style="list-style-type: none"> <li>• ADEK policy and procedure for external reviewer selection</li> <li>• List of external reviewers</li> <li>• ADEK non-disclosure/confidentiality statement</li> <li>• ADEK conflict of interest statement</li> </ul>
<b>Outputs:</b>	<ul style="list-style-type: none"> <li>• ADEK contract with external reviewers</li> <li>• Statements of confidentiality and conflict of interests signed by the reviewers</li> </ul>
<b>Time line:</b>	Three weeks upon the submission of the list to the ADEK AQAC the external reviewers' panel is appointed.

### \* STEP 5: Submit application for external desk-review

<b>Description/ Definition:</b>	The full application package is sent to the external reviewers for desk review.
<b>Responsible:</b>	Procedure Coordinator
<b>Inputs:</b>	<ul style="list-style-type: none"> <li>• The application package</li> <li>• ADEK external reviewer's template and guidelines</li> </ul>
<b>Time line:</b>	Within one week after the external panel appointment

## THE PROCEDURE

### \* STEP 6: Conduct external desk-review

<b>Description/ Definition:</b>	The external reviewers conduct the desk review. Close to the end of the review a one day face-to-face session takes place in ADEK under the QA Section Manager's and Procedure Coordinator's lead to draw the major findings and areas of further inquiry during the site-visit (if any).
<b>Responsible:</b>	External Reviewers; ADEK procedure coordinator; QA Section Manager
<b>Outputs:</b>	<ul style="list-style-type: none"><li>• Individual reports of the external reviewers</li><li>• Joint draft of the final report with major findings and the areas to be further explored should a site visit be necessary</li></ul>
<b>Time line:</b>	Six weeks upon the receipt of the application package.

### \* STEP 7: Site-visit (optional, based on the request of the external reviewers)

<b>Description/ Definition:</b>	Under the lead of ADEK Procedure Coordinator the External Reviewers undertake a site-visit to the HEI under scrutiny. During the site-visit the panel has an opportunity to explore on-site the data provided in the application, meet the stakeholders and further scrutinize the areas that are not clearly covered in the application package.
<b>Responsible:</b>	External reviewers and ADEK Procedure Coordinator
<b>Outputs:</b>	<ul style="list-style-type: none"><li>• Individual reports of the external reviewers</li><li>• Joint draft of the final report with major findings and recommendations.</li></ul>
<b>Time line:</b>	Up to four to five days

## THE PROCEDURE

### \* STEP 8: Prepare summary report

<b>Description/ Definition:</b>	The panel Chair along with the ADEK Procedure Coordinator prepares a summary report to be submitted to the AQAC for decision taking. The summary report is circulated among the external reviewers for confirmation.
<b>Responsible:</b>	ADEK QC Section Manager; P&R Division Director
<b>Inputs:</b>	The summary report template
<b>Outputs:</b>	The summary report
<b>Time line:</b>	Within two weeks after the meeting / site visit.

### \* STEP 9: Take decision

<b>Description/ Definition:</b>	The final summary report is sent to the ADEK AQAC for decision taking.
<b>Responsible:</b>	ADEK AQAC
<b>Inputs:</b>	The summary report
<b>Outputs:</b>	Minutes of the AQAC meeting and the decision decree
<b>Time line:</b>	Within one week upon the submission of the summary report.

### \* STEP 10: Inform the applicant on the decision taken

<b>Description/ Definition:</b>	<p>In case of a positive decision a No Objection Letter is issued to the HEI seeking to apply for (re)-licensure. The No Objection letter is signed by the ADEK Chairman and is sent to the applicant.</p> <p>In case of a negative decision a Non Approval Letter is issued to the HEI. The Non Approval letter is signed by the ADEK Chairman and is sent to the applicant.</p> <p>In case the decision taken entails further improvement, a Letter of Recommendations with follow up activities is issued to the applicant. The timeline for a new application is set in the letter. The Letter of Recommendation and follow up is signed by the ADEK Chairman and is sent to the applicant.</p>
-------------------------------------	---

<b>Responsible:</b>	ADEK Chairman; P&R Division Director, QC Section Manager
<b>Inputs:</b>	<ul style="list-style-type: none"> <li>• The No Objection Letter template</li> <li>• The Non Approval Letter template</li> </ul>
<b>Outputs:</b>	<ul style="list-style-type: none"> <li>• The No Objection Letter addressed to the HEI</li> <li>• The Non Approval Letter addressed to the HEI</li> <li>• The Letter of Recommendations and follow up addressed to the HEI</li> </ul>
<b>Time line:</b>	Within one week upon the decision taking.

<b>Description/ Definition:</b>	Once the decision is taken, ADEK informs the CAA on the results of the procedure for the CAA consideration.
<b>Responsible:</b>	ADEK AQAC; P&R Division Director, QC Section Manager
<b>Inputs:</b>	<ul style="list-style-type: none"> <li>• The sample letter to the CAA</li> <li>• The No Objection Letter template</li> <li>• The Non Approval Letter template</li> </ul>
<b>Outputs:</b>	<ul style="list-style-type: none"> <li>• The letter to the CAA on the specific case and decision</li> <li>• The No Objection Letter addressed to the HEI applicant</li> <li>• The Non Approval Letter addressed to the HEI applicant</li> <li>• The Letter of Recommendations and follow up addressed to the HEI applicant</li> </ul>
<b>Time line:</b>	Within 10 working days upon the decision taking.

ADEK's Higher Education Policy and Regulation Division establishes an external reviewer panel to conduct the (re)-authorization review leading to the award of a No Objection Letter. The panel is assisted by the ADEK Procedure Coordinator assigned once the application is filed. The external reviewers must meet the following requirements:

- The panel should be chaired by one of the panel members based on agreement between the panel members themselves or appointed by ADEK AQAC.

The panel should be independent and its independence should be guided by the ADEK Conflict of Interest Policy (see Conflict of Interest Policy and Confidentiality).

Panel members must sign a declaration of independence, conflict of interest and confidentiality statements prior to commencing the review process.

ADEK conducts (re)-authorization of existing institution by selecting and appointing external reviewers to ensure objectivity and independence of decision-taking. To ensure transparency of the external review procedure ADEK has adopted a procedure through which it selects and appoints the external reviewers. The expert selection procedure has the following steps:

- T. +971 (2) 615 0000 IG. ADEK INSTA WWW.ADEK.GOV.AE

The following criteria are applied while selecting external reviewers (national and international):

- \* A PhD in the respective field of study
- \* A proven track record of experience in the higher education management
- \* At least 10 years of teaching and research experience
- \* Experience in developing study/academic programs
- \* Experience in review and quality assurance (desirable)
- \* Fluency in English is required and fluency in Arabic is preferred.

- \* A PhD in the respective field of study
- \* A proven track record of research conducted in the respective field of study
- \* At least 10 years of teaching experience
- \* Experience in developing study/academic programs
- \* Experience in review and quality assurance (desirable)
- \* Fluency in English is required and in Arabic is preferred.

A conflict of interest occurs when an external reviewer is involved in an activity, commitment, or interest that could adversely affect, compromise, or be incompatible with their obligations as an ADEK external reviewer.

A conflict of interest can involve conflict of time commitment, relationship interest, financial interest, competitor's interest, or discipline-specific interests.

**A conflict of time commitment** occurs when the external reviewer is involved in and committed to unauthorized activities that interfere with their obligations to ADEK thus delaying the review procedure

All the reviewers are to sign a declaration of independence/Conflict of Interest and ADEK's Non-Disclosure/Confidentiality statement prior to the launch of the external review. In these declarations, the reviewers attest to having taken note of the conflict of interest and non-disclosure policy. The final report submitted to AQAC for decision taking should include a declaration that the assessment has been carried out independently and the findings may not be disclosed by any other party but the ADEK.

**Partially meets the criterion:** This scale applies in exceptional cases when the market need is clearly stated and the value added and impact of the HEI is explicit, however, there are administrative and technical issues still to be addressed to meet the criterion.

The external reviewers should provide a list of major findings with substantiated analysis for each of their conclusions, as well as provide a list of recommendations for the follow up and further enhancement.

Based on the desk review and site-visit (if applicable) of three independent reviewers the Chair of the panel along with the ADEK Procedure Coordinator develops a final Summary Report for review by the AQAC for decision taking. The Summary Report should include a substantiated final conclusion on the quality of the HEI provisions on the same three-point scale. The Summary Report should also include recommendations for the follow-up activities.

The ADEK appeals procedure includes the following steps as outlined below:

## APPEALS

### STEP 2: Receive & Review Appeal

<b>Description/ Definition:</b>	The ADEK Chairman receives and reviews the appeal, along with any supporting documents provided by the applicant. Upon reviewing and assessing the appeal the Chairman sends the appeal to the Higher Education Sector Executive Director and, thereof, Higher Education Sector Policy and Regulation Division for registration and processing the case.
<b>Responsible:</b>	ADEK Chairman, HE Executive Director, P&R Division Director
<b>Inputs:</b>	<ul style="list-style-type: none"><li>• Letter of Non-Approval</li><li>• Appeals Petition</li></ul>
<b>Outputs:</b>	<ul style="list-style-type: none"><li>• Letter of Non-Approval</li><li>• Appeals Petition</li></ul>
<b>Time line:</b>	Within one week upon submission of the application.

### STEP 3: Register Appeal, Schedule Appeals & Prepare Response

<b>Description/ Definition:</b>	<p>The QC Section Manager registers the appeal (with the supporting documents, if any) in the Appeals Registry.</p> <p>A review schedule is set for the appeal. The review panel is composed of two external reviewers.</p> <p>The QC Section Manager prepares a response letter to the Appellant stating the logistics of the review and providing information on any requirements that need to be prepared and submitted. The Response Letter is shared with the P&amp;R Division Director for review.</p>
<b>Responsible:</b>	ADEK QC Section Manager
<b>Inputs:</b>	Appeals Petition
<b>Outputs:</b>	Response Letter
<b>Time line:</b>	Within two weeks upon the case registration.

## APPEALS

### STEP 4: Approve Response

<b>Description/ Definition:</b>	The P&R Division Director reviews the Response Letter received from the QC Section Manager and identifies any changes that need to be made. Once the Response Letter is finalized, it is sent to the Appellant.
<b>Responsible:</b>	ADEK P&R Division Director
<b>Inputs:</b>	<ul style="list-style-type: none"><li>• Response Letter</li><li>• Appeals Petition</li></ul>
<b>Outputs:</b>	Response Letter
<b>Time line:</b>	One day upon the receipt of the Response Letter.

### STEP 5: External Review of the Case

<b>Description/ Definition:</b>	The case is sent to two independent external reviewers for evaluation
<b>Responsible:</b>	External Reviewers
<b>Inputs:</b>	The appeals petition with all the supporting documents
<b>Outputs:</b>	The External Reviewers' reports
<b>Time line:</b>	Two to six weeks upon receiving the case by the reviewers depending on the scope of the appeal.

### STEP 6: Summary of the Report

<b>Description/ Definition:</b>	The QC Section Manager prepares a Summary Report – A summary of the external reviewers' reports.
<b>Responsible:</b>	QC Section Manager
<b>Inputs:</b>	The reports of the external reviewers

## Outputs:

## Time line:

**Description/  
Definition:**

Once the decision is taken by the Higher Education Appeals Committee, the Committee Secretary prepares the recommendation to be signed by the Committee's Chair and submitted to the ADEK Chairman for sign off.

## Responsible:

## Inputs:

## Outputs:

## Time line:

44

**Description/  
Definition:**

## Responsible:

## Inputs:

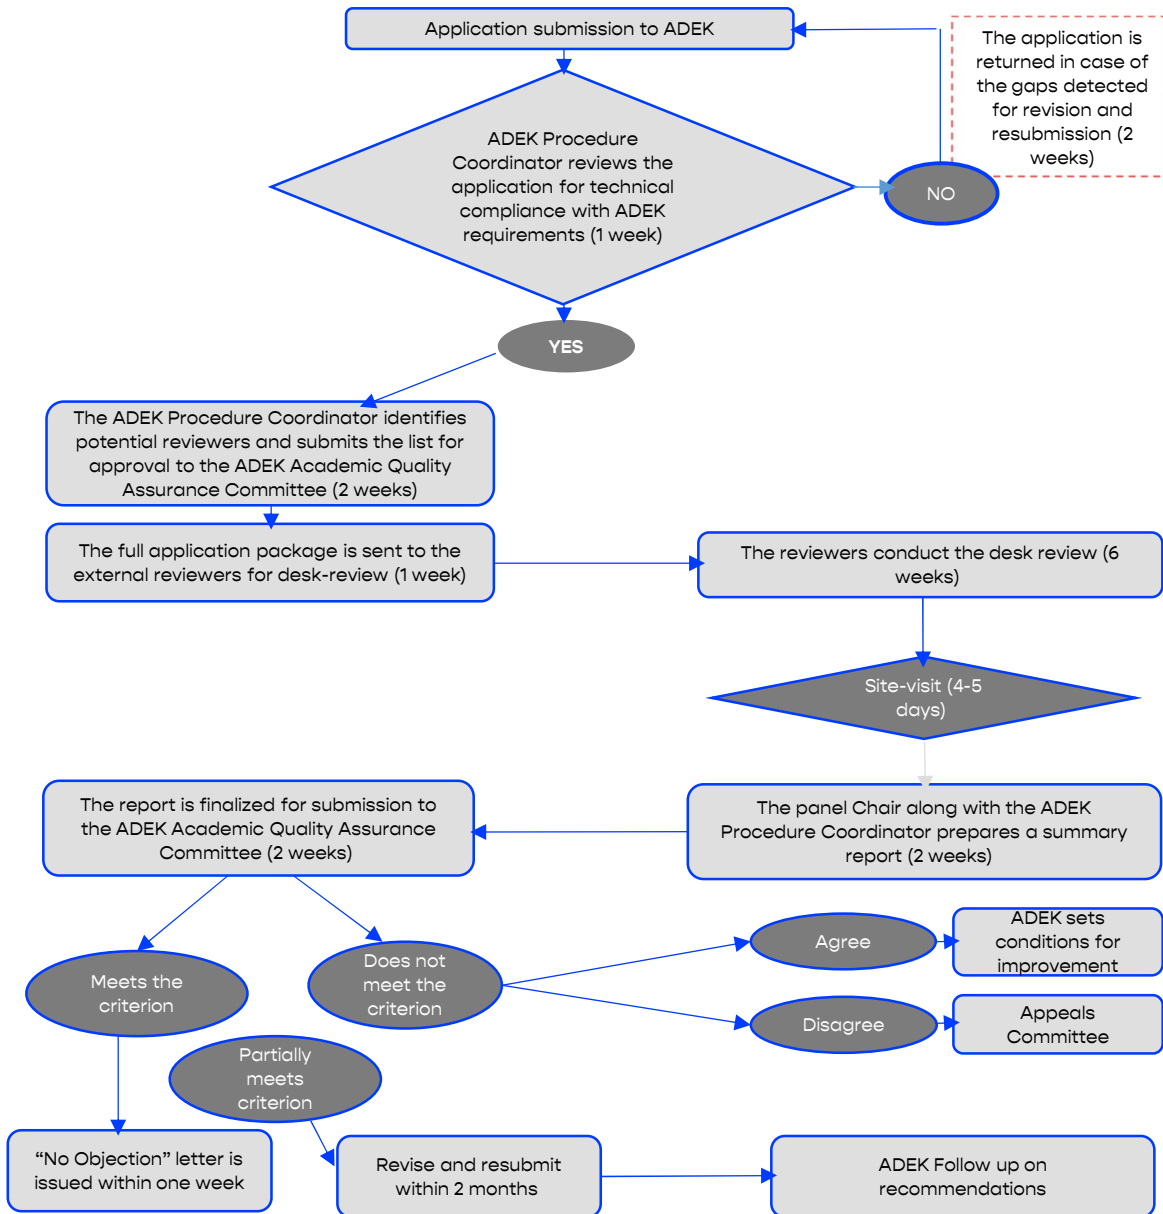

## Time line:

Within one week after the decision taking.

دائرة التعليم والمعرفة  
DEPARTMENT OF EDUCATION  
AND KNOWLEDGE

T. +971 (2) 615 0000 IG. ADEK\_INSTA WWW.ADEK.GOV.AE

In Section A the external reviewers are asked to provide a one-page brief introduction to the case as well as the summary of the major findings in a narrative form.

In Section B the external reviewer is asked to provide the list of the key issues with respective short descriptions.

In Section C the external reviewer is asked to provide assessment for each criterion and a short statement on whether the criterion is Met, Partially Met, or not Met. A one sentence clear and precise statement on the major reason for a particular outcome of assessment is required.

In Section D the external reviewer is asked to provide the general overview of the assessment for each criterion. See table below.

**T. +971 (2) 615 0000    IG. ADEK\_INSTA    WWW.ADEK.GOV.AE**

## ANNEXES

Criteria			Assessment Outcome
1	<b>Alignment with Abu Dhabi's Strategic Priorities</b>		
	1.1	Positioning in the HE system:	
	1.2	Employability of graduates:	
<b>Overall for Criterion 1</b>			Met/Not Met/Partially Met
2	<b>Governance and Administration</b>		
	2.1	Mission, vision and strategy:	
	2.2	Governance, structure and nomenclature:	
<b>Overall for Criterion 2</b>			Met/Not Met/Partially Met
3	<b>Programs</b>		
	3.1	Alignment of the programs with the national qualifications framework:	
	3.2	Learning outcomes and qualifications offered:	
<b>Overall for Criterion 3</b>			Met/Not Met/Partially Met
4	<b>Research</b>		
	4.1	Promotion of research and innovation:	
	4.2	Research outputs and outcomes	
<b>Overall for Criterion 4</b>			Met/Not Met/Partially Met
5	<b>Community Services</b>		
	5.1	General community service:	
	5.2	Charity and volunteer work:	
<b>Overall for Criterion 5</b>			Met/Not Met/Partially Met
6	<b>Resources</b>		
	6.1	Faculty and staff:	
	6.2	Learning resources:	
	6.3	Student services:	
	6.4	Physical campus:	
	6.5	Financial capacity:	
<b>Overall for Criterion 6</b>			Met/Not Met/Partially Met
7	<b>Access</b>		
	7.1	Broadening access:	
	7.2	Support for disadvantaged students:	
<b>Overall for Criterion 7</b>			Met/Not Met/Partially Met
8	<b>International Visibility</b>		
	8.1	Institutional ranking:	
	8.2	Institutional and program accreditation:	
<b>Overall for Criterion 8</b>			Met/Not Met/Partially Met

In Section E the external reviewers are asked to list the areas of further inquiry during the site-visit (relevant).

## F. Recommendations

In Section F the external reviewers are asked to provide draft recommendations for each key issue outlined in Section B. This part of the external reviewer report is intended for the follow-up by the HEI and ADEK on the current procedure and will be referred to in the decision-making as well as follow-up procedures.

### G. Additional Comments

In Section G the external reviewers are asked to provide any other additional comments they found necessary but were somehow left out.

## ANNEXES

### \* ANNEX H: Summary Review Template

Overview of the applicant Institution.

As a review team, please provide a team-agreed summary for each criterion. Use the headings and descriptions below to complete your evaluation. Please also refer to the sub-criteria to support your summary.

- \* **Major findings:** Major findings on the criterion that constitute a balanced presentation of *positive developments* and the *areas in further need of improvement*. All the statements need to be supported by evidence.
- \* **Judgments:** For each statement made under section Major Findings provide a final Assessment Outcome. For the judgement use only one of the following outcomes **Met/Partially Met/Not Met**.
- \* **Commendations:** For each *positive development*/statement please provide sentence of commendation – these will inform the follow-up discussion between the HEI and ADEK.
- \* **Recommendations:** For each area identified as needing *further improvement*, please provide a sentence of recommendation. The recommendation should draw on your expertise and awareness of international best practices.

### CRITERION 1: Alignment with Abu Dhabi's Strategic Priorities

- ## CRITERION 2: Governance and Administration

## C. Summary Assessment

Criteria			R1	R2	R3	Team agreed
1	Alignment with Abu Dhabi's Strategic Priorities					
	1.1	Positioning in the HE system:				
	1.2	Employability of graduates:				
Overall for Criterion 1						
2	Governance and Administration					
	2.1	Mission, vision and strategy:				
	2.2	Governance, structure and nomenclature:				
Overall for Criterion 2						
3	Programs					
	3.1	Alignment of the programs with the national qualifications framework:				
	3.2	Learning outcomes and qualifications offered:				
Overall for Criterion 3						
4	Research					
	4.1	Promotion of research and innovation:				
	4.2	Research outputs and outcomes:				
Overall for Criterion 4						
5	Community Services					
	5.1	General community service				
	5.2	Charity and volunteer work				
Overall for Criterion 5						
6	Resources					
	6.1	Faculty and staff:				
	6.2	Learning resources:				
	6.3	Student services:				
	6.4	Physical campus:				
	6.5	Financial capacity:				
Overall for Criterion 6						
7	Access					
	7.1	Broadening access:				
	7.2	Support for disadvantaged students:				
Overall for Criterion 7						
8	International Visibility					
	8.1	Institutional ranking				
	8.2	Institutional and program accreditation:				
Overall for Criterion 8						

Please provide any additional comments that you might wish to make, that are not captured in the above sections.

## E. Signatures

Hereby, the expert panel declares that the assessment has been carried out independently and the findings will not be disclosed by any other party but the ADEK.

## ANNEXES

### \* ANNEX I: Glossary of Terms

Term	Definition
<b>Academic Quality Assurance Committee (AQAC)</b>	Is a decision-taking body established within the ADEK Higher Education Sector to take decisions related to authorization of new HEIs, programs, substantive changes, and re-authorization of existing HEIs. It is comprised of the key stakeholders of the Abu Dhabi higher education system.
<b>Academic/study program</b>	An academic/study program is a combination of courses and/or requirements leading to a degree.
<b>Appeal</b>	A procedure in which cases are reviewed in case parties involved in a procedure request a formal change to an official decision. Appeals function both as a process for error correction as well as a process of clarifying and interpreting the decision. Appeal procedures are ADEK internal.
<b>Authorization</b>	Authorization is a process whereby a new institution or a new academic/study programs is granted a no objection to function in the Emirate of Abu Dhabi. It is a pre-requisite step for new HEIs and new programs prior to their submission to the CAA for initial licensure and initial accreditation.
<b>Criteria</b>	Checkpoints or benchmarks determining the attainment of certain objectives and/or standards. Criteria describe to a certain degree of detail the characteristics of the requirements and conditions to be met and therefore provide the (quantitative and qualitative) basis on which an evaluative conclusion is drawn.
<b>External review</b>	The process whereby ADEK HE Sector Policy and Regulation Division collects data, information, and evidence about an institution, a particular unit or program of a given institution, or a core activity of an institution, in order to make a statement about its quality. The external review is usually based on a self-evaluation report provided by the institution and can be used as a basis for indicators or as a method of judgment for (external) evaluation in higher education. ADEK provides training programs/induction prior to the evaluation to ensure their mutual understanding and the fair, consistent, appropriate and smooth implementation of the process.

## ANNEXES

<b>External reviewers</b>	External evaluation is carried out by a team of external experts, peers, or professionals in the field. The external reviewers have strong background in respective fields of study and professional experience, therefore, they come from academia for institutional authorization cases, and from academia and labor market for external review of study/academic programs.
<b>External review panel</b>	The external review panel consists of up to 3 faculty members in case of institutional evaluation and up to 3 faculty members and professionals in respective fields in case of study/academic programs. For each procedure ADEK sets a panel by matching the qualifications of the peers and professionals with the submitted initiatives.
<b>Evidence-based evaluation</b>	Evidence-based evaluation is the cornerstone of the culture of evidence. The latter is a mindset acquired in a higher education institution and based on clear ethical values, principles, and rules, which consists of the self-evaluation of its learning outcomes, engaging the teaching staff and the academic administration in a thoughtful, regular collection, selection, and use of relevant institutional performance indicators, in order to inform and prove, whenever (and to whomever) necessary, that it is doing well in specific areas (e.g. institutional planning, decision-making, quality, etc.) and for the purpose of improving its learning and teaching outcomes. The culture of evidence requested from a higher education institution implies that the institution is encouraged to be able to provide empirical data proving the consistency of its own mission.
<b>Fitness of purpose</b>	<i>Fitness of purpose</i> is a definition of quality in higher education, which guides the principle of evaluation of the extent to which the quality-related intentions of an organization are adequate and are aligned with the priorities set in the country.
<b>Fitness for purpose</b>	<i>Fitness for purpose</i> is a definition of quality in higher education, which judges the quality of a product or service in terms of the extent to which its stated purpose, defined either as meeting customer specifications or conformity with the institutional mission, is met.
<b>Follow up</b>	Follow up is shorthand for procedures to ensure that outcomes of review processes have been, or are being, addressed.

## ANNEXES

<b>Higher Education Institutions</b>	An educational body which carries out higher education activities based on legally approved study programs leading to a bachelor degree and above. Any higher education institution must follow an external evaluation procedure in order to assess its quality and to acquire the provisional functioning authorization, followed by its official licensure, as well as the accreditation of its study programs. Higher education institutions may differ in size, quality, resources, number of teaching staff and students, etc.
<b>Procedure</b>	A predefined, fixed, step-by-step sequence of activities or course of action (with definite start and end points) that must be followed in the same order to correctly perform an external evaluation.
<b>QFEmirates</b>	The single description, at national level or level of an education system, which is internationally understood and through which all qualifications and other learning achievements in higher education may be described and related to each other in a coherent way and which defines the relationship between higher education qualifications. The QFEmirates Handbook sets out the policies, structures, standards, systems and procedures for the national qualifications framework for the UAE, known as the QFEmirates. It enables a coherent, consistent and robust approach to be taken to the design of qualifications for higher education, general education and technical, vocational and professional education and training. It sets out criteria for both the accreditation of qualifications and for those organizations in the public and private sectors which are to deliver them. It provides guidance and a reference tool for accreditation and awarding bodies and qualifications designers and developers.
<b>Re-authorization</b>	Re-authorization is a process whereby an existing institution is granted a “no objection” to function in the Emirate of Abu Dhabi. It is a cyclical procedure and is conducted every five years prior to the HEI submission to the CAA for re-licensure.
<b>Self-evaluation</b>	The process of self-evaluation consists of the systematic collection of administrative data, the questioning of students and graduates, and the holding of moderated interviews with lecturers and students, resulting in a self-study report. Self-evaluation is a collective institutional reflection and an opportunity for quality enhancement. The resulting report further serves to provide information for the review team in charge of the external evaluation.
